

How Can FSS help you set your sights on a new beginning?

Your FSS Coordinator will help you locate the services you need to become employable: this can include helping you find a college to attend, putting you in touch with a G.E.D. program, helping you locate financial assistance, assisting you in completing an application for school, financial aid, employment, etc., helping you locate affordable daycare, assist you in applying for daycare assistance, and many other services.

All you have to do is be willing to help yourself, and FSS can help you become financially independent. In five short years you could be free of any general type of assistance, be employed and have a future worth looking forward to.
